this far reaching volume analyzes the social cultural political and economic factors contributing
to mental health issues and shaping treatment options in the asian and pacific world multiple

lenses examine complex experiences and needs in this vast region identifying not only cultural issues at the individual and collective levels but also the impacts of colonial history effects of war and disasters and the current climate of globalization on mental illness and its care these concerns are located in the larger context of physical health and its determinants worldwide goals such as reducing global poverty and the evolving mental health response to meet rising challenges affecting the diverse populations of the region chapters focus on countries in east southeast and south asia plus oceania and australia describing national history of psychiatry and its acceptance present day mental health practice and services mental physical health impact of recent social change disparities in accessibility service delivery and quality of care collaborations with indigenous and community approaches to healing current mental health resources the state of policy and areas for intervention a welcome addition to the global health literature mental health in asia and the pacific brings historical depth and present day insight to practitioners providing services in this diverse area of the world as well as researchers and policymakers studying the region

geographically and demographically asia is a huge region with a large number of societies and cultures each affected by their own unique problems including over population major natural disasters poverty and changing social and economic factors inevitably this means that different mental health needs have developed across the region colonialism globalization industrialization and urbanization have brought major demographic and cultural shifts in the region but clinical mental health practices and services and societal attitudes to mental health issues vary enormously this handbook surveys the state of the current psychiatric care field across the whole asia pacific region focusing on individual countries each chapter will include a summary of factors affecting the practice and provision of psychiatric care including cultural attitudes to mental health issues coverage of the conceptualisation causation and prevalence of mental health issues in society an overview of mental health care services and systems available and workforce training coverage of country specific innovative practices and folk therapies as the first major reference work on psychiatric care in asia this book is an essential resource for scholars and students researching mental health in asia as well as psychiatrists and other mental health professionals working in the region

geographically and demographically asia is a huge region with a large number of societies and cultures each affected by their own unique problems including over population major natural disasters poverty and changing social and economic factors inevitably this means that different mental health needs have developed across the region colonialism globalization industrialization and urbanization have brought major demographic and cultural shifts in the

region but clinical mental health practices and services and societal attitudes to mental health issues vary enormously this handbook surveys the state of the current psychiatric care field across the whole asia pacific region focusing on individual countries each chapter will include a summary of factors affecting the practice and provision of psychiatric care including cultural attitudes to mental health issues coverage of the conceptualisation causation and prevalence of mental health issues in society an overview of mental health care services and systems available and workforce training coverage of country specific innovative practices and folk therapies as the first major reference work on psychiatric care in asia this book is an essential resource for scholars and students researching mental health in asia as well as psychiatrists and other mental health professionals working in the region

this book focuses on the impact of social dimensions on the mental health of people living in the eight south asian countries the biopsychosocial approach has been well accepted and considered while formulating the risk factors and treatment strategy for mental disorders it indicates the importance of social structure and social influence on mental health psychiatric disorders and treatment the social determinants of mental health including social networks culture norms socio economic conditions and healthcare systems in south asia vary remarkably from the west also societal changes under western influence are noticeable in several sections leading to a change in the way people cope with adversities additionally the political and economic instability in several countries poses additional challenges to mental health the impact of social structure in south asia on psychiatric disorders and vice versa has not been adequately addressed yet so this book seeks to address that the book also takes a look at various new state run social initiatives to advance mental health and manage mental illnesses

this is a comprehensive volume on issues and concerns relating to child and adolescent mental health in asia which includes contributions from experts in child psychiatry from asia and other parts of the world the chapters provide accurate and detailed accounts of the current state of knowledge integrating research approaches and findings from clinical studies each chapter discusses existing information emphasizes areas of growth and provides fresh insights on a particular topic especially as these might relate to asian populations the book integrates various clinical and scientific perspectives on psychiatric disorders in children and adolescents with a focus on asia the various sections deal with important topics in child and adolescent psychiatry the current understanding of mental disorders and the ways in which possible influences might work in the development of psychopathology substance use disorders their neurobiological correlates and implications for the developing brain early environmental influences in the psychopathology of psychiatric disorders in children issues of parenting child

rearing and cultural practices in asia which influence personality development and adaptation life long impact of early parental loss early diagnosis and intervention in recognizing and treating psychopathology psychopharmacology of neurodevelopmental disorders in children non pharmacological treatments for children mental health gap and telepsychiatry as an innovative model to provide services for children and a pressing need for a comprehensive child mental health policy across nations

this volume is the result of a conference on mental health research in asia and the pacific held at the east west center university of hawaii in 1966 at which a distinguished multidisciplinary group of investigators from australasia europe and north america explored such questions as how asian countries had made use of western psychiatric theories and techniques to understand similarities and differences in behavior in cross cultural settings as well as attempted to reach some agreement on common denominators in human behavior regardless of cultural differences the editors dr william caudill a social anthropologist and dr tsung yi lin a psychiatric epidemiologist both of whom participated in the conference have done an admirable job of organizing the work of their colleagues and keeping their opinions from intruding into three topical sections which present the proceedings and discussion in such a way as to be most helpful and economical to the reader

this book focuses on the impact of social dimensions on the mental health of people living in the eight south asian countries the biopsychosocial approach has been well accepted and considered while formulating the risk factors and treatment strategy for mental disorders it indicates the importance of social structure and social influence on mental health psychiatric disorders and treatment the social determinants of mental health including social networks culture norms socio economic conditions and healthcare systems in south asia vary remarkably from the west also societal changes under western influence are noticeable in several sections leading to a change in the way people cope with adversities additionally the political and economic instability in several countries poses additional challenges to mental health the impact of social structure in south asia on psychiatric disorders and vice versa has not been adequately addressed yet so this book seeks to address that the book also takes a look at various new state run social initiatives to advance mental health and manage mental illnesses

this volume brings to light the impact of asian culture on psychotherapy scholars and clinicians from east asia and india go beyond technical dimensions to examine culture and psychotherapy at the theoretical and philosophical levels an overview invaluable for understanding some of the nuances of asian culture is followed by chapters on asian

personality and psychopathology asian psychology in particular parent child relations the impact of asian traditional thought and philosophy on psychotherapy the unique psychotherapeutic approach of asian culture and psychotherapeutic experiences from various parts of asia

in the movement for global mental health critical views from south and southeast asia prominent anthropologists public health physicians and psychiatrists respond sympathetically but critically to the movement for global mental health mgmh they question some of its fundamental assumptions the idea that mental disorders can clearly be identified that they are primarily of biological origin that the world is currently facing an epidemic of them that the most appropriate treatments for them normally involve psycho pharmaceutical drugs and that local or indigenous therapies are of little interest or importance for treating them the contributors argue that on the contrary defining mental disorders is difficult and culturally variable that social and biographical factors are often important causes of them that the epidemic of mental disorders may be an effect of new ways of measuring them and that the countries of south and southeast asia have abundant though non psychiatric resources for dealing with them in short they advocate a thoroughgoing mental health pluralism

this volume is the result of a conference on mental health research in asia and the pacific held at the east west center university of hawaii in 1966 at which a distinguished multidisciplinary group of investigators from australasia europe and north america explored such questions as how asian countries had made use of western psychiatric theories and techniques to understand similarities and differences in behavior in cross cultural settings as well as attempted to reach some agreement on common denominators in human behavior regardless of cultural differences the editors dr william caudill a social anthropologist and dr tsung yi lin a psychiatric epidemiologist both of whom participated in the conference have done an admirable job of organizing the work of their colleagues and keeping their opinions from intruding into three topical sections which present the proceedings and discussion in such a way as to be most helpful and economical to the reader

as people across all nations around the world are beginning to live longer the world health organization estimates the number of older adults will double to 1.5 billion by 2050 this presents visible increases in older adult mental health issues and it is therefore vital that we understand the cross cultural impact of social determinants of health in psychiatric illness and care in aging adults as part of the oxford cultural psychiatry series mental health in older people across cultures provides a detailed overview of the diverse factors including

socioeconomic and systemic factors within and across countries that impact the process of ageing mental health and illnesses of older adults and their care this unique resource provides a necessary clinical understanding of factors on ageing and the varied roles that families and caregivers have on the ageing process with an emphasis on highlighting similarities and differences across cultures the second half of the book then focuses on specific disorders in older adults across the globe affected by these factors the nuances impacting diagnosis and treatment of these disorders as well as research and development of healthcare policy written by experts in the field from across the world this comprehensive book will be of great interest to a diversity of readers from psychiatrists to trainees general practitioners to social workers and many other mental health providers from epidemiology to economics and substance use disorders and from east asia to africa and the americas this valuable addition to the field of mental health in older adults provides a world of fascinating insight

this book is about the current status and ways ahead of geriatric psychiatry in south asia south asia is home to a large proportion of the world s elderly with improved longevity the geriatric population is increasing fast in recent years in south asian countries along with this the mental health burden of the older adults is increasing however mental health care of older adults in south asia is a neglected area little is known about the burden of mental disorders and available mental health services specific for the older adults population in south asia and other low and middle income countries it is well known that resources are fewer in this region and most of the older adults in these areas are not recognized or treated there is a urgent need to explore the services available their appropriateness and effectiveness and to reflect on the region specific economically viable solutions that can be adapted soon the book discusses how these services can be seamlessly integrated to the existing support systems besides the interventional aspects the book also explores the facilitating and impeding factors of implementing evidence based preventive efforts in these countries

despite diverse rich cultural traditions and abundant economic opportunity there has been a paucity of research on psychology in southeast asia this book aims to fill that gap with a series of well written theoretical and empirical chapters by phd psychologists in se asia along with respected international colleagues and co authors from around the globe in particular this book focuses upon critical sociocultural clinical and health issues and perspectives in psychology in southeast asia overviews help contextualize the cultural data permitting nuanced examination of significant psychological issues in nations such as malaysia indonesia thailand singapore and more psychologists and mental health professionals with interests in asia will find this book to be a must read as will other readers seeking to deepen their cultural and international

understanding

this book is about access to mental health care in south asia south asia consists of eight countries with low and middle income backgrounds the region contains a combined population of about 2 billion making up about a quarter of the global population the people of this region share common cultures beliefs and behavioral patterns regarding physical and mental health among them about 15 about 300 million have been suffering from common mental disorders however there is a persisting high treatment gap for mental illness in the region hence despite having a mental illness only a small percentage of the population is able to have access to essential mental healthcare though governments are trying to bridge the gap by improving mental health policies and programs it is still a major challenge delivering mental healthcare to all people in need due to the income category and dual disease burden of the countries there are some additional enduring challenges like poor funding and research inadequate and inequitable manpower huge out of pocket expenses poor mental health literacy income disparity and high stigma this book aims to highlight the issues related to accessing mental health services in a densely populated low and middle income setting this book is the first of its kind in comparing and contrasting the delivery status of mental health services in south asian countries

this volume brings to light the impact of asian culture on psychotherapy scholars and clinicians from east asia and india go beyond technical dimensions to examine culture and psychotherapy at the theoretical and philosophical levels an overview invaluable for understanding some of the nuances of asian culture is followed by chapters on asian personality and psychopathology asian psychology in particular parent child relations the impact of asian traditional thought and philosophy on psychotherapy the unique psychotherapeutic approach of asian culture and psychotherapeutic experiences from various parts of asia

does the mental health system abuse service users what makes the relationship between mental health and crime so problematic why is mental health care obsessed with risk this challenging and lively text considers these and other contentious questions surrounding the delivery of modern mental health care drawing together respected authors in the field each chapter focuses on a controversial issue that is often overlooked or ignored the alternative perspectives presented encourage readers to reflect critically on their own role including what they do whom they do it for and what the implications are for service users critical issues in mental health is a stimulating read from which all students and practitioners will take

something positive it is essential reading for all those engaged in mental health care book jacket

a guide to the thesis literature on china and inner asia written between 1976 and 1990 includes more than 10 000 entries for dissertations in the arts and sciences law medicine theology engineering and other disciplines entries are grouped in topical chapters and each entry includes bibliographic information and an abstract
